I'm thinking of around 07:00, but I'm getting confirmation from Matt Plate as he has a longer travel distance than I do.

Michael – Just came to mind that although my team can start whenever, I'm not sure if Apple would have constraints as they will want to escort us. If you let me know when you want to start, I will reach out and confirm it with them.

Hi Kurt,

Do you have a start time restriction? With traffic it is better for me to have an early morning start. Thanks, Michael

Hi Kurt,

EPA management has approved the site visit. Have a good weekend.

Michael

Thanks, I need to document the number of people for COVID. Do you think the building manager will want to be present?

Hi, Michael – We will have the following people attend:

- Michael Shannon – Northrop Grumman's Corporate Manager, Environmental Remediation.
- Holly Holbrook – AECOM's Project Manager
- Myself – Northrop Grumman's Project Manager

I am expecting we will also have an escort from Apple but I have not yet been able to confirm who that will be. I'll let you know as soon as I hear back from Apple.

Hi Kurt, excluding the EPA, how many people will be on the site walk?

Thanks!

Hi, Michael – Sounds good. I confirmed with GI Partners also. The Apple contact is on vacation this week, but I will talk to her about logistics first thing next week.

Hi Kurt,

Myself and Matt Plate will be able to visit the site on Thursday 8/19. The only caveat is that we both need final approvals for field work considering the current high COVID-19 transmission rates; however, this should not be an issue.

Thank you,  
Michael

Thanks, the date is OK for me and looks OK on Matt's calendar, but I'm confirming.

Hi, Michael – We are available on Thursday 8/19. I am still waiting for confirmation from GI Partners and Apple, but I would not expect there to be any issues with them. I will give you final confirmation on it by the end of the week, but I wanted to go ahead and let you know that 8/19 is looking the best for us. We will plan to arrive the evening before so could start as early as you would like in the AM.

**Subject:** Site visit: TRW Microwave Site 825 Stewart Drive building

Hi Kurt,

EPA requests a site walk and inspection visit of the TRW Microwave Site 825 Stewart Drive building. Can you arrange for EPA access to the building from the current property owner, which I believe is GI DC Sunnyvale LLC? Myself and Matt Plate with EPA request reasonable access to visit the items addressed in the attached annual inspection memo and the 2014-2015 building mitigation measures that addressed the potential for vapor intrusion into the building, which included:

- The sub-slab depressurization system that was installed underneath the site building to vent vapors to the atmosphere.
- The building's concrete slab and cracks that were sealed to prevent vapor intrusion. As well as any building concrete slab penetrations (e.g., from pipes or seams in the building).
- Past indoor air sampling locations.
- The location where contaminated soil was excavated from underneath the building.
- The spaces between the walls of the three sections of the buildings that were sealed in 2014-2015.
- The emulsified vegetable oil in-situ bioremediation system.
- The location of groundwater monitoring wells.

EPA also wants to review any post 2014-2015 building modifications or changes to the building.

Can you get back to me this week with some dates for a site visit in August? Northrup Grumman and your consultant are also invited to attend, understanding that there may be COVID-19 related restrictions in how many people can visit the building or congregate. I am available for a site visit any week, except for August 9-11 and the week of August 23-27 and Matt Plate typically has limited availability on Fridays.

Feel free to call me to go over,  
Thank you,

---

Hi, Michael – As you requested during our last discussion on TRW Microwave, attached is a technical memorandum prepared by GES that summarizes the 2020 SSD system inspection conducted at the onsite building currently leased by Apple. Please let me know if you have any questions or need any additional info.
